

GENERAL INDEX.

To VOLS. I. AND II.

- Acarids, 24, 29, 85, 91, 117-123; II, 29, 112.
Chilopods, 30, 60.
Chloropids, II, 29 .
Albinos and Varieties, 26, 86, 93; II, 25, 92.
Alder Flies. 96; II, 60.
Aleyrodids, 57, 126.
Algae, 14; II, 34-35, 82.
Alston district, Ornithological Survey of, II, 69.
Alston district (see Cumberland, East Nook of.)
Annelids, II., 34, 84
Anthomyids, 94.
Ants, 17; II., 32.
Aphids, 57, 85, 91.
Aquarium, Marine, II., 81.
Arachnids, 24, 28, 29, 46, 59. 85, 91, 117-123, 127; II., 18-22, 32, 90-91, 105, 116, 122.
Ascidians II., 34
Ballast Plants at Middlesbro', 42.
Barnacles, II., 82.
Bats, II., 55, 99.
Bdellids, 117-123.
Beasts of Barn and Byre, II, 104.
Bees, 17, 28, 58, 115; II., 39.
Beetles, 46, 75-78, 90, 107-109; II., 31 ,64, 106.
Belsay Lake, 43.
Birds, 25-26, 27, 33-37, 46, 52-53, 54, 55, 56, 65-68, 68-70, 83, 84, 87, 92-93, 97-99, 103-104, 104-107, 123-125; II, 9, 23-24, 25, 39, 52-55, 65-69, 69-75, 85, 86, 86-90, 92, 113-116.
Birds bathing in dust, II, 53.
Birds carrying young, 106; II., 90.
Birds' Food, of Bullfinches, 93; of Golden Eye, II, 53.
Blackhall Rocks, 14.
Book Notices, 24; II., 15, 32, 124.

British Association, at Newcastle, 13.
Budle Bay, winter and summer at, 33-37
Butterflies, 17, 81, 82, 93, 115.
Caddis-flies (see Trichoptera.)
Carnivorous Plants 38.
Cecidomyids, 58-59, ' 85 ,90; II, 42-45, 61, 94-96.
Centipedes, 30, 60.
Chalcids, 90.
Chelifers. 29, 59, 70-75; II., 105.
Chernetids (see Chelifers.)
Cheviot, II, 16.
Chilopods, 30, 60
Chloropids, II., 29
Chrysopids, II., 59
Coccids, 28, 57-58,126 : II., 29, 93-94
Coelenterates, 60
Coleoptera, 46, 75-78, 90, 107-109; II, 31, 64, 105, 106 .
Collecting Coleoptera, 75-78, 107-109.
Competition for young people, 32 .
Coniopterygids, 22-24, 56-57, 95; II, 32, 55, 60.
Crustacea, 14, 127; II., 34, 36, 64, 84.
Cumberland, Jottings from East Nook of, II., 37, 65.
Curious nesting sites, 103.
Cynipids, 89, 90; II., 9-12.
Cypripeds, II., 82.
Diplopods, 46.
Diptera, 29, 46, 58-59, 85, 90, 94-95; II., 29, 42-45, 94-96, 125.
Dolphins, II., 110, 111.
Dragon-flies, 57; II., 28-29.
Echinids. II 36, 84
Editorial Notes, 3; II, 97.
Eelworms, 92.
Ephemeroids, 85, 91, 95; II., 60.
Eriophyids, 85, 91; II., 116.
Farne Islands, Birds of Outer, 54, 68, 97
Ferns, 62, 96; II, 7.
Fishes, II, 35, 53, 111, 124.
Flowering Plant, A New, 46.

Flowering Plants of an Upland Dale, II, 1.
Flowering Plants, 14, 16, 17, 18-21, 30-31, 38-12, 4.2-43, 43-45, 4.6~7, 60-62, 83, 84, 91, 99-101, 110-112; II., 1-6, 8-9, 17, 18, 23. 29-31, 39-41, 46, 49-51, 88, 92-93, 122-123.
Foreword, 1.
Formicids, 17; II., 32.
Fossils, 16; II., 9.
Froghopper, New British species of, 37.
Froghoppers, 37, 86, 91; II., 55, 61.
Fungi, 32, 64, 92; II, 56-59.
Fungus animals, 92.
Gall-causing flies, Some, 94.
Gall-flies. 94-95; II., 29.
Gall-midges, 58-59, 85, 90; II., 42-45, 61-64, 94-96, 121.
Gall-mites, 85, 91; II., 116-119.
Galls on Goats Beard, II, 43; on Ground Ivy, II., 44.
Galls on Oak, II, 64.
Galls on Rose and Clover, II, 45.
Galls, Talks about Plant-, 88, 101; II, 9, 42-45, 115-119.
Gall-Wasps, 89, 102; II, 9-12, 64.
Gamasids, II, 105, 107.
Garganey in S.E. Durham, II, 24.
Geological features, 16, 47-52. 109-113; II., 9, 46-49, 111.
Glacial Surface features, 47.
Gnats, 46.
Grebes, Unsolved problems concerning II., 113.
Grouse netting, II, 66.
Hancock Prize Essays, The, 9.
Helpers wanted, 88; II, 55, 97.
Hemerobiids, II, 59-60.
Hemiptera-Heteroptera, 57, 126; II., 27-28, 60, 61, 105, 123
Hemiptera-Homoptera, 28, 37, 57, 85, 91; II., 28, 61
Hippoboscids 58.
History and Geography of the Shrubby Cinquefoil, II, 49:
Humble Bees, 17, 28, 29, 58, 115, II., 39
Hymenoptera, 17, 28, 89; II, 9-12, 27, 32 39 10, 64, 91.
Isopods, Terrestrial, 14, 29, 127; II, 64
Ixodiids, II., 29

Klyket Fox, 27
Lakes, 43, 109-113; II., 23.
Lepidoptera 17 58 78-83 90 93-94, 115, II 26-27, 31. 32. 40. 70. 108.
124, 126
Lichens, II, 47.
Liver Mosses, 64.
Mammals, 26, 86; II, 25-26, 48, 55, 98-105, 110, 111
Marine Aquarium, First Experiences with a, II., 81.
Marine Life, 14; II., 33-37.
Marine Zoology at Redcar, II, 33.
May-flies, 95, 96; II, 60.
Meal-mites, II, 107.
Mice, Voles, and Shrews, II., 98-105.
Microscopic Mounts, Preparation of Insects as II., 75
Microscopic Mounting Accessories II., 77
Middlesbrough, Ballast Plants at, 42.
Midge-gall, A New British, II, 121.
Migrations Of Fish, II., 124.
Mite Families, Table of, 117-118.
Mite-galls, II, 116-119.
Molluscs, 30, 60; II., 34, 35, 36, 48, 82, 84
Moors, The Study of, II, 46.
Mosses, 32, 62-64, 112; II, 47, 123
Moths, 17, 58, 78-83, 90, 93-94, 115;-II, 26-27, 31, 32, 40, 70, 108,
121, 126.
Muscids, 90.
Mycetozoa, 92.
Myriapods, 30, 48, 60.
Natural History Society of North'd and Durham, Field Meetings, 83-86;
II, 22-24: Transactions of II., 108-113.
Nematodes, 92.
Neuroptera, A New Species of, 22.
Neuroptera , 22-24, 56-57, 85, 95-96; II, 31, 32, 55, 59-60, 125.
Newham Bog, II, 121-125.
Newts, 5-9.
Northumberland Lakes, The, 109.

Odonata, 48, 57, II, 28-29.

Oribatids, II., 104, 112.
Ornithological Survey of District for 1916, II, 69.
Ornithology (see birds).
Panorpids, 82, II, 60.
Parasitical Plants, 18.
Perlids, 96.
Pisces II., 35, 53, 111 124.
Plant, A new Flowering, 46.
Plants (see Flowering Plants).
Plant-bugs, 57, 126; II, 27-28, 60, 61, 106, 123.
Plant-galls, 58-59, 85, 88-92, 94,-95; II, 9-12, 15, 29, 61-64, 94-96,
115.
Plant-galls, Talks about, 88, 101; II, 9, 42, 115-119.
Plant-hoppers, 85, 91; II, 55, 61.
Plants, Root Parasites of, 18.
Plants Worth Studying, 18, 38.
Pseudoscorpions, 29, 59, 70-75; II, 105.
Psocids, 85, II., 31.
Psyllids, 85, 91; II., 55, 61, 124.
Pupa-hunting 78.
Recipe, Curious Old, II, 41.
Records and Notes, 26, 55, 92,126; II., 26, 56, 90, 125
Redcar Marine Zoology at, II., 33.
Reptiles, 5-9.
Reviews and Book Notices, 24, II., 15, 32, 55, 124.
Rorquals, II, 111.
Ruff Breeding in Durham, 123.
Sapromyzids, 95.
Saw-flies, 90; II, 27, 126,
Scale-Insects, 28, 57-58, 126; II., 28, 93-94.
Scarlet Mites, 91; II, 106.
Scorpion-flies, 96; II., 60.
Scorpions, False (see Pseudo-scorpions) .
Sea Anemones, 14; II, 33, 82-84.
Sea-life, Subjects for Lovers of, II, 55.
Sea Slugs, II., 31, 83-84.
Sea Urchins, II., 36, 84.
Sea-weeds, 14; II., 34-35, 82.

Shrews, Voles, and Mice, II, 98-105.
Sialids, 96; II., 60.
Simples, II., 41.
Snails, 30, 60; II., 48.
Snout-Mites, Introduction to. British
Bdellidae, 117-123.
Spiders, 28, 46, 59, 127; II., 18-22, 32, 90-91, 105, 122.
Sponges, 14; II., 34, 55.
Star-fishes, II., 34.
Stoneflies, 96.
Swaledale, Upper, II, 7.
Teesdale Some Birds in, 65.
Tenthredinids, 90; II, 27, 126.
Thrips, 85, 91, 127.
Thrombidiids, 91; II., 106.
Thysanoptera, 85, 91, 127.
Ticks, II., 29.
Trichoptera, 28, 96; II., 12-15, 51-52, 59, 91.
Trypetids, 94-95; II, 29.
Typhlocybids, 86.
Tyroglyphids, II., 105, 106.
Unknown Warbler in North Tyne,
An, II., 85.
Urchins, H., 36, 84.
Vespid, 113-116; II., 39-41.
Voles, Shrews, and Mice, II, 98-105.
Wasps, 113-116; II., 39-41, 91.
Water Rat, II., 103.
Weasels, White, 26, 86; II., 25.
Willows in Newham Bog, II., 122-123.
Woodcock in Spring, II., 86-90.
Woodlice, 29; II., 64.
Worms, II., 34, 84.
Zoological Miscellanea, II., 52-55.
Zoophytes, 14; II., 34-36.

ILLUSTRATIONS.

Bdellae, British, 120.

Belsay Lake, 41.
Blackhall Rocks, 15.
Carnivorous Plants, 38, 40.
Cheviot and Wooler, II., 16.
Crag Lough, 111.
Dipper and Nest, 103.
Gall-mite, Evolution of a, II., 118.
Gall-mite, II., 117.
Galls on Goat Willow and Couch Grass, 91.
Galls on Ground Ivy, II., 44.
Galls on Rose and Clover, II., 45.
Gall-Midge, II., 45.
Grebe on Grindon Lough, II., 114.
Langleyford, II., 20.
Long-tailed Tit's nest, 25.
Marsh Tit, 116.
Microscopic Mounting Accessories, II 77
Neuropteron, A new, 22.
Newts, 6, 7, 8.
Northumberland Lakes, 109.
Pied Flycatcher's nesting site, 52.
Pseudoscorpion and Scorpion, 70.
Pseudoscorpions, Local, 73.
Reeve's nest, 125.
Rosa eminens, 100.
Scorpion and Pseudoscorpion, 70.
Selby's Cove, 51.
Snout Mites, 120.
Swaledale above Muker, II., 8.
Toothwort, 20.
Unknown Warbler in North Tyne, II.,85.
Weasels, White, II, 25.
Wooler and Cheviot, II., 16.

SPECIES NEW TO BRITISH FAUNA, OR TO SCIENCE.

BIRDS-An Unknown Warbler, II, 85 .

FLOWERING PLANTS

Gymnadenia odoratissima, 3.

Linaria vulgaris, var. *rubra*, II, 30.
Potentilla argenteo-venata, 47.
Rosa emimens, 99.
Veronica chamedrys, var. *pilosa*, II., 30.
FUNGI (Rusts)-
Uromyces loti, II, 57
Puccinia silvatica, II, 58.
INSECTS-*Hymenoptera*.
Aulacidea pilosellae, II, 13.
Polistes gallicus, II, 91.
Neuroptera.-*Conwentzia eryptoneuris*, 22-24.
C. pineticola, 56.
Aleuropteryx lutea, II, 55.
Pterodela livida, II, 31.
Lepidoptera.-*Peronea fissurana*, II, 32.
Homoptera-*Psylla bagnalli*, II, 55.
Typhlocyba callosa, 37.
Diptera.-*Rhabdophaga pierrei*, II, 62
Perrisia fructuum, II, 62.
P. geranii, II, 62.
P. lathvricola, II., 63.
P. lathyri, II., 63.
P. periclymeni, II., 121.
P. salicarica, II, 63.
P. schlechtendali, II., 63.
Janetiella thymi, II, 9.1.
J. thymicola, 11., 91,
Stictodiplosis hypochaeridis, II., 94.
Contarinia rumicis, II., 96.
C. tragopogonis, II., 96.
Cystiphora pilosellae, II., 96.
C. (?) leontodontis, II, 96.
MITES-
Bdella calva, 122.
B. lacustris, 121
B. silvatica, 121.
SPIDERS-
Diplocenhia savetorum, II., 91.

Lophocarenum (?), 29.

Scleroschemu reginaldi, 28.
