

GENERAL INDEX TO VOLS. IV & V.

Acari, 141-142

Acarina, 107-112

Albinisms, 93-94, 157

Alternating Generations, 130

Arachnids, 22-32, 63, 95-96, 178-181

Bat, The Whiskered, 59-63

Bird Notes from Hancock Museum, 156-158 .

Bird Notes on Borders, 152-155

Birds, 9-12, 34-35, 36-39, 39, 42, 45-46, 46,51,86-90,94,97-101,112,146- 152,152-155,156-158

Birds, Effect of Winter of 1916-17

on, 9-12, 34-35, 152

Birds' Eggs, 122-125

Black-headed Gulls, Haunts of the, 97-101

Blepharocerids, 53-57

Blind Bristle-tails, 13-22

Bog Asphodels, History and Geography of the, 83-86

Book Notices, 46, 101-106, 112, 125- 127

Borcovicus, 63-71

Bristle-tails, Classification of and Key to, 13-22

Butterflies, 42, 45, 94-95

Campodea, Classification of, etc., 13- 22

Cecidomyid Midges, 175-177

Celtic Survivals, 158-171

Change of Colour in Feathers? 98

Chelonethids, 96

Cobwebs, 22-32

Coccid-like Midge, a curious, 175- 177

Coleoptera, 138, 142-144, 182-184

(See also Entomology)

Crayfish, 40

Cynipids, 51-52

Dancers of the Torrent, 53-57

Demodex and Follicular Mange, 125- 127

Diptera, 53-57. (See also Midges, Galls, and Entomology)

Dragon Flies, 136, 140

Durham Place-names, 101-106

Eggs, Birds', 122-125

Entomology, 41-43, 45-40, 48-49, 51- 52, 53-57, 90-92, 94-95, 127-134, 135-140, 141, 142-144, 172-175, 175-177, 182-184

Etymology (Place-names), 101-106, 158-171

Fish, 40, 72

Fish and Frog Showers, 72-74

Fleas, 62

Flora of a North Tyne Farm, 75-79

Flowering Plants, 41, 43-46, 75-79, 83-86,92-93, 115-117, 135-139

Fox, 152

Frog and Fish Showers, 72-74

Fungi, 45-46, 50, 139

Gall Midges. 136-[39, 175-177

Galls, Plant, 127-134,136-139,175-177

Gamasids, 142

Geology, 1-8, 32-33, 117-121

Grasshopper Warbler, The, 36-39

Hemiptera-Heteroptera, 141

Hemiptera-Homoptera, 52

History and Geography of the Bog Asphodels, 83-86

Hydracarina, British, 107-112

Hymenoptera, 51-52

Lebour, late Professor, 1-8

Lepidoptera, 41-43,45-46,94-95, 136- 139. 172-175

Local Lists, Significance of, 47-50, 90-92

Loughs, Birds at the Northumberland, 146-152

Mammals, 8, 46, 59,93,98, 151-152

Mange, Demodex and Follicular, 125- 127

Midge-Galls, 130-137

Midge, Life History of a, 54-57

Midges, 51-57

Midges, Cecidomyid, 175-177

Molluscs, 51

Mosquitos, 54

Moth and the Candle, The, 172-175

Moths, 41-43, 46, 94-95, 172-175

Moult, or Change of Colour in
Feathers?,98

Myriapods, 71, 139

Natural History Society, Field Meetings in 1917,43-46: in 1918,135- 139

Nesting-sites, unusual, 39

Net-winged Midges, 53-57

Norman, late Canon, 80-82

Northumberland Loughs, Birds at the, 146-152

Oak Galls, J27-134, 136-139

Obituary Notices, Professor Lebour,
1-8: Canon Norman, 80-82

Odonata, 136-140

Oecology, 75-79, 91

Ornithological Miscellanea, 86-90

Ornithology (see Birds)

Otters, 151-52

Pennines, Easter on the, 32-33

Penshaw, 113-115

Penshaw Hill, its Geology, etc., 117-121

Physiography and Geology of Penshaw and District, 117-121

Pisces, 40, 72

Place Names, 101-106, 158-171

Plant Galls, 127-134, 136-139, 175- 177

Plants (see Flowering Plants)

Primitive - tails, Bristle - tails, and Spring-tails, 13-22

Psyllids, 52

Reviews, 101-106, 125-127

Records and Notes, 51, 92,142, 182

Reptiles, 45, 72-74

River Names, 158-164

Roman Names, 158-171

Roman Remains, 63-71

Roman Wall, 165-171

Scorpions, False, 96

Shrews and Voles, 8-9

Slow Worm, 45

Spiders, 22-23, 63, 95-96, 178-181

Spring-tails, Primitive-tails, and Bristle-tails, 13-22

Stray Notes On Plants, 115-117

Talks about Plant Galls, 127-134

Voles and Shrews, 8-9

Wasp Galls, 127-134, 136-39, 175-177

Wensleydale, a Week in; 40-43

Winter Wildfowl, 146-152

Wolf of the Shingle, The, 178-181

Wolf-spiders, 178-181
