

INDEX TO VOLUME VII.

- Abnormal Plants, 88.
Acidity, of Soil, 20.
Adders, 113.
Amphidinium operculatum, 12.
Analysis, Dimethylglyoxime as a reagent, 73.
Antimonial Lead, sampling, 76.
Atomic Numbers, 107.
Atomic Structure, 5.
Birds, 31, 38,45,46,47, 80, 106, 119.
in Cumberland, 1920, 89
in Derwent Valley, 47.
females in male plumage, 106.
Holy Island, 62, 117.
Coast Waders, 80.
Collembola, 13.
Correspondence, 46.
Cumberland Notes, 89.
Dimethylglyoxime, a reagent, 73.
Dinoflagellates, 12.
Dormouse, 91.
Durham University, its position, 41.
Eagles (Winter, 1920-21), 104.
Entomological Section, Nat. Hist. Soc. N. D., 40.
Entomology, Medical, A Chapter in, 65.
Falcon, Red-footed, 119.
Female Birds in Male Plumage, 106.
Flowering Plants, 48, 120.
Fulmar, 119.
Fungus Parasite, 97.
Gamasidae, 18.
Generalia, 88.
Geological Processes, 57.
Geology, 57, 90, 100.
Gingko biloba, 28.
Glossy Ibis, Cumberland, 38.
Graphite, 100.
Hardness of Materials, 39.
Harvest Mouse, 91. Herons, 47.
Hymenoptera, 120.
Ibis, Glossy, Cumberland, 38.
Inheritance of Size, Oporabia, spp. 49.
Lead, Antimonial, Sampling, 76.
Leblanc Process, 7.
Lesser Whitethroat, 38.
Little Bunting, 31.
Little Owl, 119.
Lizards, 114.
Local Place-names, 32.
Local Woodlice, 60.
Mawer, Local Place-names, 32.
Medical Entomology, 65.
Minerals, North Country, 100.
Mites, some new, 17.
Natural History Society, N.D., 40.
New Mites, 17.
Nitrogen, Fixation by Plants, 78.
North Country Minerals, 100.
Notes and Records, 48, 60, 117.
Notes on Thorns, 86.
Ornithology. See Birds. Ornithology, Geographical Bibliography, 45.
Owl, Little, 119.
Parasite, Fungus, 97.
Physics Notes, 5, 90.
Place Names, 32.
Plants, Abnormal, 88.

Plants, Flowering, 48, 120.
 Plants, and Fixation of Nitrogen, 78.
 Primula farinosa, Variation of, 21.
 Records, Notes and, 48, 60, 117.
 Relativity, Theory of, 82.
 Reptiles, 113.
 Reviews, 32, 45.
 Sampling Antimonial Lead, 76.
 Size, Inheritance of, 49.
 Slow-worm, 114.
 Sminthuridae, 13.
 Soil Acidity, 20.
 Societies, News of, 42, 93.
 Tarsonemidae, 17.
 Theory of Relativity, 82.
 Thorns, 86.
 Variation, Primula farinosa, 21.
 Various Notes, 38, 88.
 Waders on Coast, 80.
 Whitethroat, Lesser, near Carlisle, 38.
 Wireless Telegraphy, 39.
 Woodlice, Local, 60.
 Zoological Miscellanea, 26.

CONTRIBUTORS TO VOLUME VII.

BAGNALL, R. S.

BARTLETT, A. W.
 BLACKBURN, K. B.

BOLAM, G.

CHARLTON, P.
 COLLINS, S. H.
 COORE, R. B.
 DAY, F. H.
 DUNCAN, J. B.
 FLECK, A.
 GARDNER, J.
 GILL, E. L.
 HANBY, T.
 HARRISON, J. W. H.

HAWKES, L.
 HULL, J. E.

LOMAS, W.
 LUNNON, R. G.

MARRINER, T. F.
 MILLER, E.
 PEACOCK, A. D.

ROBINSON, P. L.
 ROBSON, C.
 SMYTHE, J. A.
 STORROW, R.
 TEMPERLEY, G. W.
 WATSON, G.

Contributions towards a Knowledge of the Collembola, 13.
 Records of Local Woodlice, 60.
 A Simple Fungus Parasite, 97.
 Ginko biloba, 28.
 Nitrogen Fixation by the Agency of Plants, 78.
 An Abnormal Salix, 88.
 Zoological Miscellanea, 26.
 Little Bunting, 31.
 Geographical Bibliography of British Ornithology (Review), 45.
 Eagles in Northumberland and on the Borders, Winter, 1920-21, 104.
 Female Birds Assimilating the Male in Plumage, 106. Records, 119, 120.
 Birds, &c., 46.
 Soil Acidity, 20.
 Botanical Records, 120..
 Cumbrian Notes, 39
 Sampling Antimonial Lead, 76.
 Recent Work on Isotopes, 1
 Notes on Harvest Mouse, Dormouse, &c., 91.
 Red-footed Falcon at Corbridge, 119.
 Atomic Numbers, 107.
 The Variation of Primula Farinosa, 21.
 Botanical Records, 48.
 Inheritance of Size in the Crosses involving Oporabia autumnata and O. filigrammaria, 49.
 Geological Processes, Past and Present, 57.
 Some new Mites, 17.
 Local Place-names (Mawer's Northumberland and Durham), a Review, 32.
 A Few Notes on Thorns, 86.
 Theories of Atomic Structure, 5.
 The Theory of Relativity, 82.
 Cumbrian Notes, 89.
 Bird Note, 47.
 The Entomological Section, Nat. Hist. Soc. N. D., 40.
 A Recent Chapter in Medical Entomology, 65.
 Dimethylglyoxime as a Reagent in Analysis, 73.
 Some Observations on a few of our Reptiles, 113.
 North Country Minerals-Graphite, 100.
 Amphidinium operculatum, 12.
 Waders on the Northumberland Coast in September, 19~0, 80.
 Birds in Holy Island, Autumn and Winter, 1920.21, 62,117.
